

ORGANIC COMPOUND CLASSES

530	Peptides / Proteins
534	Radioactive and rare earth metal containing and azo
536	Carbohydrates
540	At least 7-membered N-ring
544	6-membered N-ring with at least one other O/S/N
546	6-membered N-ring
548	5-membered N-ring optionally with other O/S/N
549	Oxygen / sulfur heterocyclic ring
552	Azides, quinones and steroids
554	Fatty acids and derivatives
556	Heavy metal, aluminum and silicon containing
558	Esters (phosphorus, nitriles and other miscellaneous)
560	Esters (carboxylic and other miscellaneous)
562	Acids, acid halides, acid anhydrides
564	Nitrogen containing (ureas, sulfonamides, amides, amines),
568	Sulfur or oxygen containing (sulfides, ketones, alcohols)
570	Halogenated hydrocarbons
585	Hydrocarbons
